

## Event Safety and Management

MSA have provided Event Safety and Event Safety Management services for over 20 years and our experienced team of engineers provide all levels of advice, from pre-planning to on-site co-ordination and supervision during the event itself.

### Services >

- >Onsite Event Management
- >Event Pre-Planning and design advice
- >Licensing Applications
- >Crowd Flow Analysis
- >Queuing Analysis
- >Staff Training
- >Risk Assessments

### Benefits >

>A successfully planned and implemented event will run smoothly and safely. The event model can be repeated for future events providing familiar consistency to the operator, licensees and authorities.

>Benefits, in terms of pre-planning, include effective means of escape (without inefficient over provision) coupled with a fire risk assessment. This may include detailed queuing and egress analysis to ensure efficient movement of people before, during after the event.

>Our experienced team of full time Fire Officers and qualified Fire Safety Instructors provide training to wardens and senior managers with regard to general fire safety management as well as specific responses to certain events, such as emergency evacuation.

>This service offered by MSA provides a seamless link between design and management and results in a successful event, from start to finish.

### Projects >

- >Phoenix Park, Dublin (Robbie Williams Concert - 120,000 capacity)
- >Croke Park Dublin (U2 Concert - 82,000 capacity)
- >Various Concerts at Lansdowne Road, Dublin
- >Slane Castle (U2, Rolling Stones etc 80,000 capacity)
- >Special Olympics at Croke Park
- >Punchestown Racecourse (Oxegen Weekend Festival)
